SETUP

Board: Standard 8×8.

Setup: Standard chess setup.

FEN: rnbqkbnr/pppppppp/8/8/8/8/PPPPPPPP/RNBQKBNR w KQkq - 0 1

RULES

- ♦ If a capture is available, you MUST capture. If multiple captures are available, you may choose which one.
- ♦ The King has no royal status — it can be captured like any other piece and there is no check or checkmate.
- ♦ No castling.
- ♦ Pawns may promote to King (in addition to the usual pieces).
- ♦ Stalemate (no legal moves) is a WIN for the stalemated player.

WIN CONDITION

Lose all your pieces, or be stalemated.

STRATEGY

You want to force your opponent to capture your pieces while avoiding being forced to keep yours. Opening theory is highly developed — certain openings force wins within a few moves.
